Summary

Senior Web developer with a passion for creating wonderful experiences and learning forever. I highly value communication and teamwork, and bringing more to the company than a brain in a seat.

Experience

Senior Shopify Developer

Elva

11/2023 - Present

- Work with Figma files from designers to create, update, and maintain Shopify sites.
- Review and approve GitHub pull requests.
- Onboarding new developers to projects.
- Worked with a project manager to create the "perfect" JIRA ticket.

Senior Shopify Developer

Sweden Unlimited

09/2022 - 11/2023

- Took designs from Figma and spun them into fully functional Shopify sites.
- Wrote acceptance criteria for client work tickets.
- Reviewed and approved GitHub pull requests.
- Created an interactive interface that allows the client to place absolutely positioned elements on an informational Shopify section.
- Created an interactive legend that allows the client to identify and determine in the admin which Shopify section a CTA will scroll to.

Tech Lead

Tomorrow Agency (now Domaine)

09/2021 - 09/2022

- Oversaw developers for several clients, reviewing and approving code pull requests, and implementing major and minor theme releases.
- Ran weekly meetings to plan for sprints, and mid-week check-ins to shepherd progress as needed.
- Created, maintained, and updated client Shopify sites, wrote liquid templates and sections, and implemented CSS structure (mixins, SCSS directories).

Senior Web Developer

First+Third

09/2020 - 09/2021

- Translated Sketch and Abstract designs into semantic, reusable, and scalable code—optimized for performance, accessibility, and cross-browser compatibility—using HTML, SCSS, Nunjucks, and JavaScript.
- Maintained and updated client sites for non-profit organizations.
